

# JANUS

FRANCESCO LUCCHESI

The unique structure, characterised by the combination of two double C-shaped elements in metal, is what captures the eye first. Available in various different heights and finishes, the structure supports the table top (either round or semi-oval in shape), which can be finished in materials such as marble, wood and glass. **Janus**, it all adds up to a flowing design heightened by the use of the finest materials – all expertly handled, of course.
