

PHOENIX

MAURO LIPPARINI

Phoenix conquers the living room with its winning mix of ethereal elegance, rigour and purity, contemporary design and functionality. The new sofa system may be based around simple lines, but it offers a raft of compositional possibilities. Available in a fixed or modular version, the latter encompassing a dormeuse, pouffe and chaise longue, its cosy design ensures the perfect setting for some serious relaxation.

TYPE / SOFAS

TECHNICAL DESCRIPTION

***Phoenix** is a sofa system with multiple compositional combinations, characterized by interlocking end and central armrests, which can be inserted in modules that do not include high structural armrest. They are fixed to the base of the element by shaping the seat cushions to fully accommodate them. Available in fixed and modular version, includes central elements without armrest, corner and end elements, a dormeuse, poufs and chaises longues. All the elements, whose cover are completely removable and available in multiple widths and two depths 970/1200mm. (38 2/8" - 47 2/8"), can be freely combined. The project includes asymmetric dormeuse elements that can be used individually or integrated into the sofa system, making the design extremely customizable. Cushions are removable. Seat cushion is made of expanded polyurethane, shaped in different densities and covered with polyester fiber. Backrest cushion is made of polyester fiber and sterilized feathers, both with cotton lining.*
